

**Objective:** Creating space for a shot + shooting

**Set-up:** 1/2 of the pitch, 2 goal-keepers, 2 goals, at least 3 balls, 3 pairs of players.

**Drill:** Players work in pairs. In each pair of players there is an attacker and defender. The one, who has the ball (and as soon as he has it) has to attack the opposite goal. If defender gets the ball, he becomes an attacker and attacks another goal.

As soon as the player with the ball has an opportunity (regardless of the distance to the goal) he has to take a shot. The job of an attacker is to find a corridor (space) for the shot and take a shot at goal as soon as he has the chance to do it.

There is no limit of touches for the player with the ball.

**Intensity:** High

**Duration:** 7 minutes x 3 times (1 minute breaks in-between).

P.S. This drill can be performed simultaneously on both halves of the pitch.
